Executive Summary

Students entering and attending the CATHEY MIDDLE SCHOOL will graduate and live in the 21st century. Their needs will be dictated by a rapidly changing society. It is our responsibility to prepare them to live, continue to learn in, and adapt to, this change. Decisions made today will have major effects on the quality and effectiveness of the educational process.

Technology is a major force in today's world; consequently, students must be prepared to utilize computers in education, business, and industry. It is imperative that CATHEY MIDDLE SCHOOL continue to accept the responsibility to educate students and staff in the use of technology and provide access to the tools both for the educational process and the efficient management of the instruction.

This plan is a synthesis of the visions and recommendations provided by the Campus Technology Committee, insights shared by administrators and teachers, reviews of available literature, meetings with district representatives.

The goals and objectives contained herein can all be achieved. The goals and objectives are in accordance with the Texas Long-Range Plan for Technology, the federal No Child Left Behind Act of 2001, the federal Schools and Libraries Universal Service Support Mechanism, better known as E-Rate., and are designed to support the delivery of sound instruction to student mastery of the TA-TEKS and TAKS. The technology plan is a flexible document and will necessarily evolve to meet the ever-changing needs of the campus.

It is the campus's strongest belief that through the implementation of this plan for the use of technology, the goals of excellence in teaching, learning and effective management within CATHEY MIDDLE SCHOOL are further advanced.

Purpose

CATHEY MIDDLE SCHOOL has prepared this Campus Technology Plan to articulate a common vision for technology in the campus and identify the strategies that will help us use advanced technology to improve the academic achievement, including technology literacy, of all students of rigorous curriculum standards and the development of critical thinking skills that are essential for academic and workplace success and build the capacity of all teachers to integrate technology effectively into curriculum and instruction.

Background

This plan is based on information drawn from many sources including

- A review of the literature to identify best practices
- Hardware/software inventory
- Texas Teacher and Campus STaR Chart

- Interviews with site and district administrators and representatives from the **McAllen** community.
- School site meetings
- Other

Parameters

This Long-Range Technology Plan is driven by the state curriculum standards and supports the educational mission and instructional goals of McAllen ISD and by the No Child Left Behind Act of 2001. Specific attention is given to addressing student standards for technology as defined by the Technology Applications Texas Essential Knowledge and Skills (TEKS), required in the Texas Education Code, Section 28.002. The Technology Applications TEKS found in 19 TAC Chapter 126 describe what students should know and be able to do using technology. As a part of the enrichment curriculum, these TEKS are to be used as guidelines for providing instruction. The goal of the Technology Applications TEKS is for students to gain technology-based knowledge and skills and to apply them to all curriculum areas at all grade levels.

The plan stresses the importance of ongoing and sustained staff development in the integration of technology into the curriculum for teachers, principals, administrators, and school library media personnel to further the effective use of technology in the classroom or library media center. It also is consistent with the recommendations for LEAs as defined by the Texas Long-Range Plan for Technology in the areas of Teaching and Learning, Educator Preparation and Development, Administration and Support Services, and Infrastructure for Technology, as well as the e-rate applications guidelines, and other state standards, such as Technology Applications Standards for Beginning Teachers.

Needs Assessment

Assessment Process

A comprehensive needs assessment utilizing teacher/student surveys, interviews, focus group sessions, inventories and the Texas Campus and Teacher STaR Chart was conducted to analyze the current status of technology in the campus and determine future needs. Items analyzed included: infrastructure, hardware, software, programs, courses, student achievement, technology resources, staff development, and technical support.

Current Conditions

Technology Resources

The following resources are provided:

- Subscriptions to online resources for teachers and students including databases and encyclopedias.
- Video Streaming from United Learning
- Reading Counts, Read 180, and SRI reading programs
- Digital cameras, scanners, video cameras, and digital projectors for checkout
- Access in the library to adult literacy resources on the web for all community members.
- Document Reader
- The campus website includes links for adult literacy programs, GED programs and other resources for adult education as well.
- EChalk
- Rosetta Stone

Staff Training

The following technology staff development is in place:

- All teachers are required to take a yearly survey to assess their technology skills
- All teachers will attend a minimum of one technology training per year.
- Training is provided to the campus through content areas, on-line staff development courses through Element K, ESC 1, and district technology sessions by members of the Technology Committee and/or District Technology Specialists

Technical Support

The following technical support is currently in place.

- Campus Technology Facilitator
- Instructional Technology Specialists
- Certified Computer Teachers
- Information Systems
- Librarian
- Technology Committee
- Network Support Team

Existing Technology

The following technology is currently in place:

- Direct connection to the Internet via T1 leased line.
- Ethernet-to-the-desktop connected computer labs with two file servers for classes.
- Four network drops in every classroom.
- Computer projectors for classroom checkout.
- Two networked computer labs with full-time certified teachers to aid the staff in technology implementation and training.
- Networked online card catalog, Internet access, and automated checkout in the library.
- Two mobile labs with printers and wireless network connection
- VCR, DVD players, digital cameras, camcorders, scanners, and other audio/visual aides, document reader, DVD burner, wireless access points,
- Closed circuit TVs
- Teacher issued USB storage devices
- PDAs for Administrators
- Defibrillator
- Visitor Identification scanner

Identified Needs:

- *Ongoing professional development for the integration of technology into the curriculum- UnitedStreaming, MS Office, projectors*
- *technical support*
- *Update software (Operating System) and hardware*
- *increase parental involvement*

Goals & Objectives:

CATHEY MIDDLE SCHOOL developed goals and objectives based upon the recommendations defined by the Texas Long-Range Plan for Technology and the McAllen ISD Technology Plan in the areas of Teaching and Learning, Educator Preparation and Development, Administration and Support Services, and Infrastructure for Technology.

Goals, Objectives, and Strategies

TEACHING AND LEARNING				
GOAL 1: To focus on the instructional needs of teachers and the learning needs of students in meeting the vision of technology in education.				
OBJECTIVE 1.1: 100% of Instructional Staff will be expected to develop strategies for students to improve academic achievement to meet the Technology Applications TEKS through the TEKS. <i>Budget Amount \$</i>				
Strategies	State/Status:	Timeline:	Person(s) Responsible:	Evidence:
1.1.1: Inform educators of the TA-TEKS.	State: Original Status: Planned	Ongoing	Principal; Campus Technology Committee	Department/grade level/faculty meeting agendas; district/campus/department websites; classroom posters
1.1.2: Align the curriculum with the TA-TEKS.	State: Original Status: Planned	Ongoing	Teachers	Teacher lesson plans
1.1.3: Utilize technology-related activities to support the integration of the TA-TEKS into the TEKS. i.e. Word processing, spreadsheet, database, Internet activities, multimedia projects, web-quests, treasure hunts, digital video, virtual field trips, tele-mentoring	State: Original Status: Completed	Ongoing	Teachers; Principal	Teacher lesson plans; Teacher evaluations
1.1.4: Utilize <i>computer lab</i> to integrate Technology Applications TEKS across the curriculum. Multimedia projects, Internet Research, Web-based activities	State: Modified Status: Completed	Ongoing	Teachers; Librarian; <i>Computer Lab Teacher</i>	Lab sign-up forms; Teacher lesson plans
OBJECTIVE 1.2: 100% of the Instructional Staff will be encouraged to meet SBEC Technology Applications standards for educators and TSSA Technology Standards for School Administrators respectively. <i>Budget Amount \$</i>

4.12.4:	Continue to post attendance and grading information from campus computers to Information Systems, via the Internet.	State: Original Status: Completed	Ongoing	Teachers	VistaNet system in place

Evaluation

Evaluation Process:

Evaluation of the Technology Plan will be a systematic ongoing process. All aspects of the Plan will be evaluated formally in May.

The Technology Plan Committee will be responsible for the ongoing evaluation of this plan. The intention of the evaluation will be to make decisions on the impact that technology has on the learning process for all students.

Evaluation Methods:

Other methods used for evaluation will include:

- Texas Teacher STaR Chart; Campus STaR Chart
- Informal interviews conducted by the Campus Technology Committee
- Records of staff member participation in technology training.
- Integration of training into the classroom as measured by lesson plans and number and type of technology and distance learning projects.
- Monitoring and documentation of community access to technology resources and information on the campuses and on the web site.
- Monitoring and documentation of community involvement
- Yearly inventory of hardware and software
- Support and maintenance of technology as documented by technical support records
